The Golf GTI
The rebel returns

The Golf GTI

Gear up for this top-notch hot hatch.

The beloved rebel is back on the road to create a sensation with more sport and more sophistication than ever before.

Pure driving pleasure and goose bumps guaranteed.

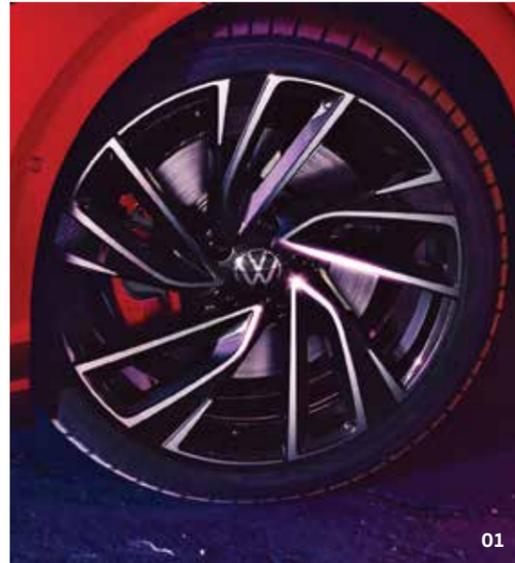

The exterior

Offering a sporty,
elegant appearance

02

01 "Adelaide" 19-inch alloy wheels are dynamic and impressively enhance the Golf GTI's sporty nature.

02 The Golf GTI is fitted with visibly dynamic LED performance headlights that stretch all the way round to the side wings, while sleek LED high taillight clusters dominate the rear. In addition, the LED front fog lights come in the new 5-honeycomb design and are built seamlessly into the bumper.

The interior

Outside: Fast-paced
Inside: Chilled out

01

01 The Leather Trim Touch Multifunction Steering Wheel can be operated with a simple tap of the finger. In combination with the intelligent menu navigation, you have access to several functions, and haptic feedback through gentle vibration confirms each interaction with the functions.

01

01 The GTI look is visible in every corner of the interior. While the premium sport seats in the front are covered in durable fabric in “Scale Paper” design, the hallmark red accents of the GTI design are not only visible on the leather steering wheel but also on the front textile floor mats that come in a complementary colour scheme.

02 The high-quality Vienna leather seats evoke a chic and premium feel and include a cooling function. The black perforated natural material covers the central seat panels and inner seat bolsters on the front premium sport seats – making the hallmark GTI red stitching look particularly impressive.

02

An aerial photograph of a blue Volkswagen Golf R on a dark asphalt track. The car is positioned in the center-right of the frame, surrounded by numerous concentric, overlapping tire marks that suggest high-speed drifting or a burnout. The track has white painted lines, including a dashed line and a solid line, visible in the lower right quadrant. The overall scene is dark and moody, emphasizing the car's performance capabilities.

The Golf R
Futuristic meets iconic

The Golf R

A car made for everyone who strives for more, while still staying true to their principles. The embodiment of a new dimension of performance, which not only makes it the most elite member of the model series, but also the star of the R-brand. From 0 to 100km/h in just 4.8 seconds at an optional top speed of 250km/h. The fourth stage in the evolution of the 2.0L TSI engine with an output of 235kW (320PS) and the 7-speed dual-clutch gearbox (DSG) represent a very particular lifestyle: dynamic, progressive and inspiring.

The exterior

Rev up for sporty elegance

01 The R-specific dynamic front bumpers are complemented by wide air vents – stretching from the distinctive side sills to the optional R-Performance Titanium Exhaust System with rear silencers in titanium from Akrapovič. The R-logo on the boot lid and the high-gloss black diffuser also hint to the vehicle's unique athleticism.

02 The blue brake calipers give the optional 19-inch alloy wheels a distinctive touch. The choices are many: 19-inch Adelaide alloy wheels, 18-inch Jerez alloy wheels, or 19-inch Estoril alloy wheels (black with burnished finish or black).

02

The interior

In a position of power

01 Experience a new side of the race track in the premium sport seats with built-in head restraints. The upholstery, which is available in optional Nappa leather, sets an exclusive tone, combining both elegance and sportiness. Be it the graceful Carbon Grey décor, brushed stainless steel pedals, cooling function and foot rests, or background lighting – the interior invites you to experience intuitive performance.

02 With the premium leather multi-functional sport Tiptronic steering wheel are larger gear paddles included, so you have a firm grip on the road.

Technology and options

Wherever the journey leads, Golf brings you an enhanced drive. One that's truly yours.

Infotainment

Once you take a look inside the Golf, you'll notice straight away that the digital future has arrived in the cockpit. These features are dominated by high-resolution displays, and the majority of functions, like the radio, air conditioning system and lighting, can be operated using touch-sensitive surfaces and sliders.

01 The 10.25-inch Active Info Display not only comes with standard features such as the rev counter, speedometer and mileage counter, but also other useful data in an even clearer and more detailed display. You can even set up your favourite functions on the home screen, just the way you would on your smartphone.

Connectivity

Heir to the tech throne.

Raising the bar in clever innovation that puts you front, centre, and connected.

01 'App-Connect' allows your Golf to connect with current Apple and Android smartphones through three innovative technologies: Apple 'CarPlay', Google 'Android Auto' and 'MirrorLink'™. This enables you to 'mirror' your smartphone's most important functions, such as phone contacts, news and music, on the touch-screen of your infotainment system, enabling you to operate them simply and safely during your journey. Please note, there is usage of only certified apps while driving. Optional Wireless App-Connect (infotainment package) available for the GTI/R.

Due to regulatory reasons, please check the availability of Wireless App-Connect with your local dealer.

Introducing **Volkswagen Care**

Peace of mind comes as standard when you join the Volkswagen family. Rest assured, you will always receive genuine care and transparent pricing from our network of authorised service centres.

Service Package

Thanks to our comprehensive services, you can hit the road without a care. Our Genuine Service provides a range of services that are designed specifically for your Volkswagen. In the event of repairs, we only install Volkswagen Genuine Parts®: high-quality, safe and tailor-made. So your journey is carefree and comfortable.

Warranty

We are focused on ensuring that you are happy with your Volkswagen and have less things to worry about as a new car owner. That's why when you buy a new Volkswagen from any of our authorised Volkswagen dealerships, we'll provide warranty cover to protect you against the repair costs of manufacturing and material defects within the specified warranty period.

Roadside Assistance

No matter where you are or what time of day it is, we've got your back. In most cases, a breakdown can be resolved at the roadside, getting you safely back on your way.

Finance Options

Owning the Volkswagen of your dreams is easier than ever with our attractive finance options. High cost repairs won't wear you down anymore, as you can even choose to pay off your car service by paying in instalments.

For more information on service packages, warranty and extended warranty, roadside assistance coverage and finance options, please contact your authorised Volkswagen dealership.
