**20** Specifications

# The new form of confidence

With its sharpened exterior design, the new level of quality and design in the interior and enhanced technical features, the new T-Roc exudes confidence and emphasises its strong personality.

# Strong character with new elements

Robust, modern and elegant, the interior of the T-Roc embraces the future, with an all-new design combined with Volkswagen's characteristic build quality.

Unprecedented levels of functionality and technology, enhanced by ergonomic attention to detail, places it in a league of its own. With plenty of space for occupants and luggage alike, the T-Roc offers all you could ask for in terms of comfort, style and convenience.

**01** From front to rear, the new T-Roc impresses with its newly designed light design. The characteristic LED daytime running lights and modern, darkened taillight clusters catch the eye from a distance. Two further highlights: the background lighting at the front in the interior and a logo projection with SUV signature, which illuminates the entrance area as an eye-catching effect when the front doors are opened.

**02** Combine your preferred lacguer with an additional colour for the **roof**, rear view mirror and A-pillar.

**03** You decide which alloys best rounds off the expressive look of the new T-Roc. How do you like the 19-inch Misano diamond-cut alloy wheels for the R-Line, for example? We are sure you will make the right choice.

## Strength comes from within

Strong, striking and sporty, the T-Roc exudes character and confidence. Take for example the Sport with its wide radiator grille, integrated LED dual headlights and separate unique signature LED daytime running lights, creating an unmistakable look, especially at night. Strong lines and a wide front air intake emphasise its bold design, with dynamic handling, a host of new technology, impressive standard specification and the option to personalise it to your preferred choice. This all adds up to create an SUV that is as much at home in the city as it is on rough terrain.

01 Take a seat and enjoy the ride in the ergoActive seat that comes as standard with the "Style" equipment line. You can easily adapt it to your stature. This relieves the strain on your back and ensures high sitting comfort and relaxation. The ergoActive seat has ArtVelours upholstery and is equipped with an electric lumbar support with massage function.

**02** With the standard leather wrapped multifunction steering wheel, you do not only control the new T-Roc, but also the radio, media player, voice control, telephone and the view of the Digital Cockpit instrument cluster. And if you opt for the T-Roc R-Line specification, the Sport multifunction steering wheel including touch control function awaits you.

03 Air Care Climatronic airconditioning system comes as standard in the T-Roc Style and R-Line, and ensures a pleasant climate all-round. The control and displays are now digitalised and are accessible via a touchscreen at the touch of a finger, making operation extremely intuitive and giving the cockpit a particularly modern look. The functional guide grooves also ensure easy and convenient operation while driving.

**04** With the vast glass panel that spans the entire width of the roof, the electric tilting and sliding panoramic sunroof is sure to catch the eye. Standard for the T-Roc R-Line, optional for the T-Roc Style.

# Infotainment and connectivity

Enjoy all the benefits of an interactive, digital dashboard thanks to a host of standard and optional equipment such as the Digital Cockpit and the Discover Media Navigation touchscreen infotainment system.

Cutting-edge connectivity ensures it's never been easier to integrate your mobile device, whether you are looking to charge or stay connected. Furthermore, the powerful Beats™ premium audio sound system delivers exceptional acoustics.

**01** The standard **Digital Cockpit** summarises all the information relevant to you in the new T-Roc on a 8-inch colour display with attractive graphics. Using the multifunction steering wheel, you can therefore conveniently access functions such as audio, telephony or assist systems via the instrument cluster while driving. You can also optionally equip your T-Roc with the Digital Cockpit Pro. With a 10.25-inch high-resolution display, it offers a wide range of options for individual configuration and additional displays, such as a navigation map display directly behind the steering wheel.

**02** The **Discover Pro Navigation system**, which is optionally available for the T-Roc Style and R-Line, is more than just a sat nav. In addition to a 9.2-inch TFT glass-covered touchscreen, it offers technical highlights that make your journey even more comfortable and connect you seamlessly to the world when on the road.

**04** App-Connect stands for convenient use of apps and content. Music, messages, maps or audiobooks are transferred to the infotainment system display and can then be operated in your field of vision. There are three interface options for connecting smartphones: Apple CarPlay, Android Auto from Google and MirrorLink. Wireless App-Connect is optional for the T-Roc Style and R-Line.\*

05 The optional wireless smartphone charger allows charging without the use of cables. The storage compartment in the front centre console contains a wireless charging pad that you place your phone on top of to charge.

**06** The optional 300-watt sound system from Beats<sup>™</sup> by Dr. Dre, gives you a sound experience on board that you can both see and feel. Six perfectly matched high-end loudspeakers ensure excellent sound in every seat, and the additional subwoofer sends its extra-deep bass sound directly into the pit of your stomach without any major detours.

Due to regulatory reasons, please check the availability of Wireless App-Connect with your local dealer.

# **Black Style** design package

Underline the athletic and expressive appearance of the new T-Roc with equipment highlights that give its exterior even more personality and the interior an even more exclusive ambience. The Black Style design package is available for the new T-Roc Style and R-Line. The options include black exterior mirror housings and roof rails, carbon-look decals on the C-pillars and 18-inch Grange Hill alloy wheels in black.

Along with darkened side and rear windows, black headliner, black glossy decorative trim, black frames around the vents on the driver and front passenger sides, and around the infotainment system.

# Technology and Assist Systems

**01** Travel Assist combines the Adaptive Cruise Control system (ACC) and the Lane Assist system to keep you in your lane, maintain a minimum distance to the vehicle in front of you and prevent you from exceeding your pre-set top speed. Working together with a navigation system, Travel Assist is being extended by predictive cruise control and an assistant that allows the vehicle to react to bends. In conjunction with the dual clutch gearbox (DSG), you can remain relaxed too while driving in traffic jams and in stop-and-go traffic. Emergency Assist is designed to take over control of the vehicle if the driver is unable to do so.

**02 Adaptive Cruise Control** helps you to maintain the vehicle at a maximum speed pre-set by you as well as a minimum distance from the car in front of you.

03 Front Assist emergency braking system with pedestrian detection can alert you to critical situations involving pedestrians and other vehicles and even apply the brake automatically in emergencies.

04 Lane Change Assist, available as a standard option, can help you to change lanes in critical situations. An LED display in the exterior mirror alerts you to another vehicle in your blind spot or approaching quickly from behind. Working together with the Lane Assist, it can support you additionally with corrective steering intervention.

05 Park Assist, available as a standard option, will not only tell you whether a parking space is big enough - it can also drive into the parking space for you. Up to a speed of 40km/h, Park Assist permanently searches for suitable parallel parking spaces. Up to a speed of 20km/h it also searches for parking bays. Once you have decided on one of the parking spaces found, you start the parking process, with Park Assist taking over the steering.

## Wheels

**01 16" Chester** alloy wheel

02 17" Johannesburg silver wheel

03 18" Portimao wheel

**04 18" Nevada** silver/black wheel

05 19" Misano silver/black wheel

**06 19" Misano** black wheel (only for Black Style)

## **Upholstery**

**01 'Mercutio'** Cloth Titan Black | Headliner Ceramique Grey

**02 'ArtVelours'** Cloth Titan Black | Headliner Ceramique Grey

**03 'Vienna'** Leather Platinum Grey | Headliner Ceramique Grey

**04 'ArtVelours'** Soult/Flint Grey | Headliner Titan Black

**05 'Nappa'** Leather Black | Headliner Titan Black

#### **Service Package**

Thanks to our comprehensive services, you can hit the road without a care. Our Genuine Service provides a range of services that are designed specifically for your Volkswagen. In the event of repairs, we only install Volkswagen Genuine Parts®: High-quality, safe and tailormade. So your journey is carefree and comfortable.

#### Warranty

We are focused on ensuring that you are happy with your Volkswagen and have less things to worry about as a new car owner. That's why when you buy a new Volkswagen from any of our authorised Volkswagen dealerships, we'll provide warranty cover to protect you against the repair costs of manufacturing and material defects within the specified warranty period.

#### **Roadside Assistance**

No matter where you are or what time of day it is, we've got your back. In most cases a breakdown can be resolved at the roadside, getting you safely back on your way.

### **Finance Options**

Owning the Volkswagen of your dreams is easier than ever with our attractive finance options. High cost repairs won't wear you down anymore, as you can even choose to pay off your car service by paying in installments.

For more information on service packages, warranty and extended warranty, roadside assistance coverage and finance options, please contact your authorised Volkswagen dealership.
