

# The Touareg

# Built to break new ground: the Touareg

The Touareg breathes fresh air into the premium SUV class with impressive new proportions, pioneering new technology and the widest range of assistance, handling and comfort systems ever integrated within a Volkswagen. A sporty elegant diffuser, dynamic LED rear tail lights and chrome trapezoid tailpipes create an athletic new look, underlined by striking 18 to 21-inch alloys depending on your chosen model. To the front, a wide assertive chrome grille extends into the headlights to create an even more dynamic appearance. Add to that an impressive specification, quality craftsmanship and the technologically advanced InnoVision Cockpit that offers new levels of functionality and customisation – not to mention the ground-breaking optional 'Off-road' pack – and you can see why the Touareg is raising the bar once again.

'IQ. Light' LED matrix headlights with intelligent light modes and Dynamic Light Assist provide greater illumination without dazzling other road users, while blending seamlessly into the wide front grille to give an unmistakable look.

# Visionary, innovative, creative. The futuristic Innovision Cockpit.

The Discover Premium 15-inch touchscreen infotainment system merges seamlessly into the 12-inch Digital Cockpit. It removes almost all protruding buttons, knobs and dials, enabling you to control the functions and systems of your car simply and easily by touch, gesture or voice. You can customise the home screen with your favourite apps and photos just like a smartphone and manage all operating systems from the central interface, making travel safer, more convenient and more intuitive than ever before. Equipped with the connectivity of a new era, the Touareg provides the blueprint for tomorrow's digital interior – today. The Innovision Cockpit is a glass digital instrument and infotainment display comprising the Digital Cockpit Pro and Discover Premium touchscreen infotainment system that creates a seamless, uncluttered and visually stunning dashboard.

# Technologically advanced comfort for a more relaxed drive

The exterior may be sporty and dynamic, but inside all is calm and relaxed, thanks to a combination of spacious design, exacting craftsmanship and technologically advanced comfort. Take for example the 14-way ergoComfort seats, with electric adjustment for the seat height, seat length, seat cushion angle, backrest angle and 4-way electrically adjustable lumbar support. Alternatively, the option of Active front climate seats offer a choice of three separate ventilation settings and eight individual pneumatic massage settings for the driver and front seat passenger.

# Multimedia

Welcome to the driver's seat of the future. The Touareg is the most technically advanced Volkswagen of its era, equipped with pioneering multimedia technology. The InnoVision Cockpit makes its debut in this technologically advanced interior.

**01-02** You can customise your home screen with your favourite apps and photos. The versatile and customisable Discover Premium touchscreen infotainment system allows you to control and view multiple functions on the same 15-inch touchscreen display. Add your favourite apps and photos, and display your smartphone apps. Your individual settings can be saved in 'personal profiles' and recalled at any time.

**01** The **Discover Pro Navigation touchscreen infotainment system** features a glass-covered 9.2-inch colour touchscreen for navigation and radio functions. It responds to spoken voice commands for navigation and telephone functions, and also features gesture control for use with various different menus, responding to swiping gestures and confirming a successful swipe with a sound effect which can be deactivated if required.

**02** The **Head-up Display** is projected directly onto the front windscreen in the driver's primary field of vision at the press of a button. Driving information, including current speed and navigation details is projected onto the windscreen and clearly displayed, helping to reduce the amount of time that the driver's eyes are averted from the road.

**03** The **Innovision Cockpit** consists of 2 high resolution displays: a centre **15-inch Discover Premium touchscreen**, that seamlessly blends into the **12-inch Digital Cockpit Pro**. The Innovision Cockpit provides laptop-like convenience and an interface you can customise just like your smartphone. Fully customisable, you can arrange information as you wish, zoom into the navigation maps giving a clearer overview of the vehicle settings, assistance and comfort systems. It is angled towards the driver, providing an ergonomically optimised display that puts everything you need within easy reach.

## Suspension and running gear

The Touareg is designed to provide exceptional ride comfort, and when fitted with the optional 'Off-road' pack, feels at home on nearly every type of terrain. A choice of driving modes include Sand and Gravel, giving you exceptional mobility even on unstable surfaces, while features such as the front underbody protection and larger fuel tank give you the capability to tackle even the toughest conditions wherever your travels may take you.

**01** Thanks to **all-wheel steering**, cornering on country lanes and parking on city streets is a whole lot easier in the new Touareg. The rear wheels steer along with the front wheels, not only giving you a smaller turning circle, but also increasing driving stability, so you can drive more dynamically with increased agility.

**02** **Electro-mechanical active roll stabilisation** reacts more quickly and at lower speeds than conventional stabilisers, reducing side roll and understeering. This ensures greater stability and comfort, enabling you to drive with precision and agility to enjoy sporty cornering, even on tough terrain.

**03** **Air suspension** ensures you enjoy ultimate driving comfort on every trip, adapting the height of the car to the terrain, with a choice of Normal, Comfort, Off-road and Special Off-road driving profiles. Your new Touareg can also be raised to give you 70mm more ground clearance or lowered to make loading and unloading easier.

Images shown are for illustration purposes only.

# Comfort and convenience

With a prime elevated driving position, a cockpit ergonomically designed around the driver and an impressive range of driver assistance systems, practical innovations and advanced technology at your fingertips, you can expect exemplary levels of comfort and convenience inside the Touareg. And of course, everything within clear sight and exactly where you need it to be.

**01 Front ergoComfort seats** ensure the optimum seating position for both driver and front passenger, with electric 14-way adjustment for seat height, seat length, seat cushion angle, backrest angle and 4-way electrically adjustable lumbar support. Further support and comfort is provided by 4-way adjustable safety-optimised front head restraints. Also included is a memory function for the driver's seat and driver's door mirror with reverse activated kerb-view adjustment on the passenger's door mirror. Memory settings for three individual profiles can be stored, then selected as required.

01

**Active front climate seats** are also available as an option, which offer climate control function for centre section, backrest and side bolsters, complete with three individual ventilation settings. For the ultimate in luxury and comfort, you can also specify **Active front climate seats with massage function**. The front seats offer the choice of eight independently pneumatically controlled settings via air cushions, that will help to relax and soothe you on any journey.

02

**02 Climate control 4-zone electronic air conditioning with automatic air recirculation** gives independent control of the temperature and air intensity to the driver, front passenger and rear seat passengers. The system is operated intuitively via the entertainment system, with additional independent controls for rear seat passengers, located on the rear of the front centre armrest.

**03 Keyless entry/keyless start and full electric tailgate operation** allows you to open and start your new Touareg without taking the key out of your pocket. The automatic electric opening rear tailgate can also be closed by pressing and holding the button which features a time delay and convenient power latching function. For further convenience, provided you have the key on you, it simply takes a flick of your foot to activate the sensors under the rear of the vehicle and open the electric tailgate.

**04-05** The Touareg's generous proportions give you the flexibility to carry many combinations of both passengers and luggage with plenty of room for seating as well as stowage. The **generous boot space**, along with the modular sliding and reclining rear seats that split and fold in a 40:20:40 ratio, allow huge flexibility, combining comfort with functionality, whatever your activities.

**06** The effortless **power latching function** automatically closes all the doors completely shut when ajar. The automated closing function is particularly useful if you're in a tight parking space with limited room to the side, and ensures no force or slamming is required to completely shut the doors.

# Driver's assistance systems

Volkswagen is constantly developing innovative technology to help keep you safe and enhance your driving experience. Providing more assistance systems than ever before, the Touareg is well equipped to handle unexpected traffic situations confidently and capably.

**01 Front Cross Traffic Assist** uses radar technology to detect vehicles or pedestrians approaching from the side, providing invaluable assistance in case of blind exits or junctions, where you have to 'nose out' slowly to see what's coming. Sensors monitor the area in front of your car, issuing optical and acoustic warnings of any cross traffic detected at speeds of up to 18mph.

If a car outside your field of vision approaches and your Touareg moves forward at a speed of up to 6mph, the system will implement an emergency stop to avoid a collision.

Images shown are for illustration purposes only.

**02 The Park Assist** with rear-view camera not only makes parallel parking easier, but also helps you reverse park into a space at 90 degrees to the kerb. Using ultrasonic sensors, Park Assist will detect a parking space large enough for either bay or parallel parking. Once the vehicle is in reverse, all the driver has to do is operate the accelerator and brake, and keep a look out, while the Touareg steers itself into its chosen space. The rear-view camera displays the area behind your vehicle on the screen of the vehicle's infotainment system, helping you to manoeuvre into tight spaces quickly and easily. Auxiliary lines help you navigate safely into parking spaces, and thanks to the high resolution display, even small obstacles such as kerbs are visible.

**03 Adaptive Cruise Control (ACC)** automatically adjusts your speed to that of the vehicle in front, ensuring you keep a specified distance. It will warn you if you're approaching too fast and, in an emergency situation, generate enough braking force to reduce the severity of or prevent a collision. Includes Front Assist radar sensor controlled distance monitoring system, City Emergency Braking System, cruise control and speed limiter.

**04 The Proactive Occupant Protection System** uses the sensors from the Electronic Stability Control (ESC) and the Front Assist traffic monitoring system to detect critical situations with elevated accident potential. If there is the possibility of a collision, it reacts by activating the hazard warning lights and at the same time all windows and sunroof are closed to just a small gap for optimal side airbag deployment. Simultaneously, the seat belt tensioners tighten the front seat belts and electrically adjustable front seats, if fitted, are aligned to enable the seat belts, head restraints and airbags to provide maximum protection.

**05 The Lane Assist** function helps to prevent accidents by using a camera controlled warning system to monitor the vehicle's position in relation to road markings. At 40mph or above, should Lane Assist detect your vehicle drift out of its lane, the system will take corrective action. If the maximum corrective action is not enough to keep your vehicle in its lane, or the speed drops below 40mph, the system vibrates the steering wheel to alert the driver to correct the vehicle, helping to make driving safer and more comfortable especially on motorways.

# Exclusive R-Line design and styling. Inside and out.

By design, the Touareg R-Line could not be better equipped, both inside and out, to handle whatever lies ahead. Numerous exterior features emphasise its dynamic character, from the distinctive 20 to 21-inch R-Line alloy wheels, 'C' signature 'Gloss Black' front air intake and 'R-Line' exterior styling pack with specially designed front and rear bumpers, body-coloured wheel arch protection, side skirts, and 'R-Line' badging on the front panels and front grille. The 'R-Line' styling ensures a dynamic exterior that delivers the highest levels of style and individuality.

**01** The stunning 21-inch 'Suzuka' alloy wheels add a unique finishing touch to the Touareg R-Line.

**02** The unique 'R-Line' badging on the radiator grille sets yet another sporty accent and underlines the striking exterior design of the Touareg R-Line.

## R-Line styling. Strong, powerful and self-assured.

As soon as you sit inside the Touareg R-Line, you'll appreciate the attention to detail and quality materials and finishes. Exclusive 'R-Line' styling includes a leather trimmed multifunction steering wheel with 'R-Line' logo, stainless steel pedals and 'Wave' aluminium decorative inlays in the dash and doors. Front ergoComfort seats with 14-way adjustment can be specified in 'Savana' leather, featuring the distinctive 'R-Line' logo on the seat backrests and decorative stitching, while 'Soul' black rooflining and 'R-Line' stainless steel front door sill protectors provide the finishing touches.

Creating an impressive welcome and hinting at the 'R-Line' interior styling to come, are the door sills in stainless steel with 'R-Line' logo for driver and front passenger doors.

## Service Package

Thanks to our comprehensive services, you can hit the road without a care. Our Genuine Service provides a range of services that are designed specifically for your Volkswagen. In the event of repairs, we only install Volkswagen Genuine Parts®: High-quality, safe and tailor-made. So your journey is carefree and comfortable.

## Warranty

We are focused on ensuring that you are happy with your Volkswagen and have less things to worry about as a new car owner. That's why when you buy a new Volkswagen from any of our authorised Volkswagen dealerships, we'll provide warranty cover to protect you against the repair costs of manufacturing and material defects within the specified warranty period.

## Roadside Assistance

No matter where you are or what time of day it is, we've got your back. In most cases a breakdown can be resolved at the roadside, getting you safely back on your way.

## Finance Options

Owning the Volkswagen of your dreams is easier than ever with our attractive finance options. High cost repairs won't wear you down anymore, as you can even choose to pay off your car service by paying in installments.

For more information on service packages, warranty and extended warranty, roadside assistance coverage and finance options, please contact your authorised Volkswagen dealership.
